

CODE SPREE

OVERVIEW:

CodeSpree is a Abhiyantriki pre-event. It is an online programming competition which will be hosted on Codechef on the 24th/25th of September 2016 (One week before Abhiyantriki). This is a National Level Contest.

RULES:

The task in CodeSpree is to write the solution to a given problem statement in C, C++, Java or Python. The difficulty level will be from beginner to hard. The contest is open to participants from all around the world. However, participants from India will only be considered for the prize. Top participants from Mumbai will be invited to Abhiyantriki for a onsite event called Crackathon, and will be directly eligible for it's final round.

JUDGING CRITERIA:

Grand prize will be given to the top candidate in the leaderboard rankings, after the contest is over. There will be only one prize. Certificate of excellence will be given to the top 3 performers. Certificate of participation will be give to candidates who solve more than 30% of problems.
